The 9/11 Terror Cases
Constitutional Challenges in the War against Al Qaeda
Allan A. Ryan

“With detailed analysis, Allan Ryan lays bare the fundamental errors of the Bush II administration in claiming for the president an inherent power to create military tribunals. The damage done by that false and rejected assertion, requiring a series of decisions by the Supreme Court and legislative action by Congress, has been costly to the principle of constitutional government and to America’s standing in the world.”—Louis Fisher, author of Military Tribunals and Presidential Power

“Allan Ryan’s The 9/11 Terror Cases is an accessible, comprehensive, and balanced account of the most important Constitutional issues that have arisen since 9/11.”—Justin J. Wert, author of Habeas Corpus in America: The Politics of Individual Rights

256 pages, (2132) $45.00 cloth, (2170) $19.95 paper

Speaking Freely
Whitney v. California and American Speech Law
Philippa Strum

“Philippa Strum is arguably the leading Brandeis scholar of the last fifty years. Justice Brandeis’s opinion in Whitney v. California is arguably the most inspiring and enduring judicial account ever of the reasons for a strong free speech principle. It seems only natural that Philippa Strum should write the definitive book on Whitney v. California. And she has done just that.”—Vincent Blasi, Corliss Lamont Professor of Civil Liberties at Columbia Law School

“Strum tells a fascinating story about a familiar and famous case while, at the same time, making the constitutional arguments alive and relevant. A terrific read.”—H. N. Hirsch, Professor of Politics and Comparative American Studies at Oberlin College

Lizzie Borden on Trial
Murder, Ethnicity, and Gender
Joseph A. Conforti

“Joseph Conforti offers a rich and eye-opening account of one of the most notorious crimes of the Gilded Age. He shows how Lizzie Borden and her lawyers masterfully exploited ideologies of class, ethnicity, and gender to win an acquittal when the facts of the case clearly pointed to her guilt. A carefully researched, well-written study that draws expertly on social and legal history to tell the story of the conflicts that simmered in the Borden household before finally erupting in horrifying violence one hot summer day in 1892.”—Bluford Adams, author of Old and New New Englanders: Immigration and Regional Identity in the Gilded Age

256 pages, (2011) $27.95 cloth

Race, Sex, and the Freedom to Marry
Loving v. Virginia
Peter Wallenstein

“Classic Wallenstein. This superb work by a proven scholar tracks the intertwining histories of race, gender, law, and religion. It masterfully re-imagines America’s past and present through the window of the Lovings’ story, a saga of race and marriage.”

—Arica L. Coleman, author of That the Blood Stay Pure: African Americans, Native Americans, and the Predicament of Race and Identity in Virginia

“Wallenstein has crafted a soaring new account of the crucial Loving v. Virginia case. This is a skillful and compelling read.”—Jonathan Bryant, Professor of History at Georgia Southern University

The Passenger Cases and the Commerce Clause
Immigrants, Blacks, and States’ Rights in Antebellum America
Tony Allan Freyer

“Freyer successfully demonstrates the role of the Passenger Cases within the broad sweep of American political and social history, both before and subsequent to the Civil War. —Herbert A. Johnson, author of Gibbons v. Ogden: John Marshall, Steamboats, and the Commerce Clause

The Woman Who Dared to Vote
The Trial of Susan B. Anthony
N. E. H. Hull
“A truly refreshing, invigorating, and spirited story! Hull’s close legal study of the charges against Anthony breaks new ground not only through her scrupulous research but in her confidence in Anthony as a force of women’s history. It significantly enlarges our understanding of her trial, its degeneration into a theater of the absurd, and its setback for U.S. women’s rights and recognition as citizens. A must read for students of women’s history and law alike.”—Kathleen Barry, author of Susan B. Anthony: A Biography of a Singular Feminist

Every Idea an Incitement
Marc Lendler

“Combining exhaustive research with perceptive analysis, Lendler’s study brings home that the case was not an easy one about freedom for innocuous speech but freedom to advocate overthrowing the American constitutional order.”—John Earl Haynes, author of Red Scare or Red Menace?: American Communism and Anticommunism in the Cold War Era
190 pages, (1875) $39.95 cloth, (1876) $18.95 paper

Especially compelling is his account of how, with the help of the ACLU, Gault’s case was heard by the U.S. Supreme Court. The author's exploration of the intricacies of the oral arguments and Justice Fortas’s majority opinion illuminate the legal issues and highlight the importance of the decision, which extended due process protections to juvenile court proceedings. In re Debs is a landmark by any standard. It set certain key terms of federal labor law for decades to come and signaled the new but burgeoning involvement of federal courts in suppressing railway strikes and boycotts. What is more, the case is an enormously revealing chapter in the history of Gilded Age America, dramatizing some of the era's most pressing social and cultural conflicts. Dred Scott and the Politics of Slavery
Earl M. Maltz
“Maltz's book has many virtues that make it a useful resource . . . [It] provides concise accounts of the legal and political contexts of the case . . . . Many of its great strengths are quiet ones. For example, Maltz provides a superb interpretation of Taney’s opinion for the Court, giving an excellent account of the way in which Taney was able to make room for considering the Missouri Compromise, even though he had already denied jurisdiction in the case because Scott was not and could not be a U.S. citizen. He likewise does a fine job of showing how the appeal to the due process clause fit into Taney's overall argument. His account of Curtis's dissent is also very good.”—Claremont Review of Books
