Thunder and Flames
Americans in the Crucible of Combat, 1917–1918
Edward G. Lengel

“Lengel has done an admirable job cutting through the decades of legend and half-truths surrounding the American Expeditionary Forces in the First World War. Students of the war will owe him a great debt for this comprehensive and effective book.”—Michael S. Neiberg, author of Dance of the Furies: Europe and the Outbreak of World War I

“Using American, French, and German records, Lengel provides a penetrating and nuanced examination of an American army at the point of its difficult birth.”—Richard S. Faulkner, author of The School of Hard Knocks: Combat Leadership in the American Expeditionary Forces

472 pages, illustrated
(2084) $39.95 cloth

The Russian Army in the Great War
The Eastern Front, 1914–1917
David R. Stone

“This slim volume skillfully exploits recent archival releases and classic accounts to form a clear, concise, and frequently poignant portrayal of Russian participation in World War I, a war that fundamentally altered the course of Russian history. It is a ‘must read’ for those interested in the subject.”—David M. Glantz, author of Endgame at Stalingrad

“For many the First World War in the East is little known. Yet, as Stone says, there everything changed. Stone is a superb guide to the innovative and exciting work going on in this field and his account grips the reader from the first paragraph.”—Christopher Read, author of War and Revolution in Russia, 1914–22: The Collapse of Tsarism and the Establishment of Soviet Power

368 pages, illustrated
(2095) $34.95 cloth

General Lesley J. McNair
Unsung Architect of the US Army
Mark T. Calhoun

“An insightful portrait of a large, enigmatic, and controversial figure in American military history. In Mark T. Calhoun, General Lesley J. McNair finally has the biographer he deserves.”—Rick Atkinson, author of The Guns at Last Light: The War in Western Europe, 1944–1945

“Mark Calhoun has done American military history a great service with this long overdue biography of an important but little understood figure.”—Lieutenant General Sean MacFarland, USA

Russia’s Sisters of Mercy and the Great War
More Than Binding Men’s Wounds
Laurie S. Stoff

“Stoff’s work is path-breaking in telling a story that’s never been told before. She has gathered a host of scattered sources and produced a compelling account of how women caught up in Russia’s Great War understood themselves and their place in Russian society.”—David R. Stone, author of The Russian Army in the Great War: The Eastern Front, 1914-1917

**The Mediterranean Air War**  
Airpower and Allied Victory in World War II  
Robert S. Ehlers, Jr.  

“Robert S. Ehlers has given us another important study of an underappreciated topic. His examination of airpower in the Mediterranean theater in the Second World War is far more than a study of aviation in war: it is an analysis of the development and implementation of combined-arms warfare, and the leverage it affords when done properly. The book is brimming with insights about command, control, leadership—indeed all the challenges posed by inter-operating military instruments in a theater of war. These insights are just as useful for contemporary practitioners and defense analysts as they are for students of history.” —Tami Davis Biddle, author of *Rhetoric and Reality in Air Warfare: The Evolution of British and American Ideas about Strategic Bombing, 1914–1945*  
Chair of Aerospace Studies, US Army War College

**Barbarossa 1941**  
Reframing Hitler’s Invasion of Stalin’s Soviet Empire  
Frank Ellis  

A fresh new study which relies on an exceptionally wide range of newly discovered German and recently declassified Russian sources, reframes our understanding of the German invasion from developments that were taking place in Germany and the Soviet Union before 1941 and concludes with an analysis of the Stalin Attack thesis, namely the brilliantly provocative claim made by the Soviet defector, Viktor Suvorov, that Stalin was planning to attack Germany but was pre-empted by the start of Barbarossa. One of the new sources is a diary kept by a German soldier who served in 20th Panzer Division from the start of Barbarossa to February 1942.

**The Red Army and the Great Terror**  
Stalin’s Purge of the Soviet Military  
Peter Whitewood  

“Whitewood has a compelling and original thesis— that Stalin’s purge of the military was not a well-planned, premeditated attack on an institution that he feared; rather he was finally convinced to do so after years of attacks on the political reliability of the army by the secret police, who saw spies and provocateurs everywhere within the ranks and command staff.” —Roger Reese, author of *Red Commanders: A Social History of the Soviet Army Officer Corps, 1918–1991*

(2117) $37.50 cloth

Friended at the Front
Social Media in the American Warzone
Lisa Ellen Silvestri

“As Silvestri demonstrates, technology has indeed blurred the distinctions between the front lines and the home front in contemporary warfare. Her example of Marines storing their digital cameras in their extra grenade pouches is a powerful reminder of the revolution which has spurred communications and social changes that Silvestri adeptly illustrates. Timely, insightful, and provocative, her book is a significant contribution to our understanding of social media, 21st century war, and the dynamic relationship between the two.”

Nixon’s Nuclear Specter
The Secret Alert of 1969, Madman Diplomacy, and the Vietnam War
William Burr and Jeffrey P. Kimball

“Finally, a well-researched and well-written account of our leaders’ dangerous nuclear brinksmanship across the high years of the Cold War. There’s much here that’s new and much that’s troubling—for today as well as yesterday.”
—Richard Rhodes, Pulitzer-Prize-winning author of The Making of the Atomic Bomb

“I didn’t know any of this as I was copying the top secret Pentagon Papers that fall, but if I had I would have given the Papers to the newspapers right away—rather than two years later, after waiting in vain for Congress to act on them—in desperate hopes of heading off massive escalation and possible nuclear war. A gripping and essential read!”
—Daniel Ellsberg, author of Secrets: A Memoir of Vietnam and the Pentagon Papers

The Pacific War and Contingent Victory
Why Japanese Defeat Was Not Inevitable
Michael W. Myers

“A major new and provocative account of the Pacific War that draws from a wide and diverse number of sources. Myers turns a lot of received wisdom about this subject on its head and tackles many assumptions that scholars of the conflict have assumed are a given. His argument merits a close and careful read.”
—Nicholas E. Sarantakes, author of Allies against the Rising Sun: The United States, the British Nations, and the Defeat of Imperial Japan

Volume 2: August 1863 – April 1865
J. B. Jones
Edited by James I. Robertson, Jr.

632 pages, illustrated
(2124) $50.00 cloth

“The Jones’s diary is a very important firsthand account about the Confederacy. There is nothing else quite like it. Jones’s position in Richmond, ear for rumors and swings in morale, and informed, though often biased, opinions of military and political leaders makes for a wonderful account. Robertson’s long-needed annotations and index will make this the preferred edition of a Civil War classic.”

**Stopping the Panzers**
The Untold Story of D-Day
Marc Milner

“An excellent book. A fresh and exciting new take on the opening days of Operation Overlord by a leading Canadian scholar. Milner not only rescues the Canadian army from the obscurity that has enveloped it in most histories of the campaign, he places the Canadians right at the heart of the Overlord narrative, where Allied planners intended them to be: in the center of the line; astride the most vulnerable terrain; and armed, trained, and equipped to shoot up the inevitable German counterattack. As Milner shows in this deeply researched and gripping narrative, that was precisely what they did.”—Robert M. Citino, author of The Wehrmacht Retreats: Fighting a Lost War, 1943

400 pages, illustrated
(2003) $34.95 cloth

**Sacrificing Childhood**
Children and the Soviet State in the Great Patriotic War
Julie K. deGraffenried

“An engaging and heartrending account of Soviet children at war that reminds us of the conflicts’ horror and brutality. DeGraffenried brings to life the small people whose heroism and endurance simply beggars belief. This book will make an important contribution to both childhood studies and the emerging social history of the Soviet war effort.”—Olga Kucherenko, author of Little Soldiers: How Soviet Children Went to War, 1941–1945

264 pages, illustrated
(2002) $34.95 cloth

**Holocaust versus Wehrmacht**
How Hitler’s “Final Solution” Undermined the German War Effort
Yaron Pasher

“Pasher’s carefully conceived study covers the critical issues in depth and within their broader wartime context and does so in a clear and convincing fashion. This is a book that should attract considerable favorable attention.”—Gerhard L. Weinberg, author of A World at Arms: A Global History of World War II

“Pasher’s masterful book makes an extremely important contribution to the study of World War II and the Holocaust.”—Doris L. Bergen, author of War and Genocide: A Concise History of the Holocaust

**Hoover’s Secret War against Axis Spies**
FBI Counterespionage during World War II
Raymond J. Batvinis

“J. Edgar Hoover’s FBI had a busy Second World War. There were vicious battles against Britain’s MI-6, America’s OSS, the War Department and grasping double agents. Then there were the Germans and the Japanese. Raymond Batvinis recounts this history with the insight of someone who has himself been in the game.”—Mark E. Together, Book One and Book Two complete a vivid and detailed picture of the Axis defeat that would prove decisive.
